WELCOME TO OP-CO

INTRO

OP-CO is a marine engineering services company specialising in refit and repair projects within the superyacht industry. We offer practical solutions for both shipboard and shoreside operations. OP-CO addresses the growing gap in service quality by delivering comprehensive, competitive maintenance packages worldwide, establishing itself as a trusted, all-in-one marine service provider. Our experienced teams ensure every project is completed to the highest standard, wherever the vessel may be.

The engineering company supporting all aspects of marine engineering within the commercial and superyacht industries. We provide service and repair work across multiple disciplines, deploying large, skilled teams known for delivering the highest standards. Our capabilities cover all typical maintenance tasks, and extend well beyond them.

SHORESIDE SUPPORT

LUXURY ESTATES

At OP-CO, our roots are in delivering high-end technical services within the superyacht industry, where attention to detail and service standards are expected to be exceptional. As many yacht owners also own luxury estates, we recognised a growing demand for the same trusted level of support ashore. We now offer a carefully selected range of services for luxury estates, bringing marine-level standards and project delivery to residential environments. From HVAC and air quality management to AV and IT services, project management, and more, OP-CO provides tailored solutions designed around performance, reliability, and discretion.

TRUSTED OEMS

PARTNERS

OP-CO partners with leading OEMs to tackle key maritime challenges in air purification, oil filtration, and marine growth prevention. Our trusted products and engineered solutions support vessel efficiency, reliability, and longevity.

OUR PARTNER SOLUTIONS INCLUDE:

- RRR Oil Filtration Systems
- Microbe Marine oxygen cluster unit
- Enluse Lubrication Management
- Custom fabrications

WHAT OUR CLIENTS SAY ABOUT US
